WELCOME

Welcome to Labelexpo Europe 2023, where we celebrate “The Modern Legends of Print” – a showcase of the visionaries and trailblazers who have revolutionized the label and package printing industry. We are delighted to host you all again here at Brussels Expo, at our industry’s longest gathering.

“The Modern Legends of Print” encapsulates the spirit of innovation and imagination that has characterized this industry’s evolution. Here, you will encounter the remarkable stories of individuals and companies who have defied conventional norms, pushing the boundaries of what’s possible.

We have prepared 3 show features to optimise your time at the show – highlighting the most interesting developments today including an Automation Arena, a Flex Pack Trail, and a seminar in Hall 11 on ‘Flexo’s Future – ECG’.

Every industry should seek to invest in on-going learning and that is why we are proud to offer an in-depth technical learning program at the show. I therefore encourage you to come along to our three expert-led master classes during the four days and see

emerging trends shape the future of package printing.

We also look forward to celebrating the industry’s best at the Label Awards in Hall 10 on the show’s first evening. I hope you can make it - we have a truly special ceremony planned as we honour, recognise and encourage excellence together.

Don’t forget to pick up the show edition of Labels & Labeling magazine packed with the latest industry news and trends. You can find the team at the Organiser’s Office in Hall 5 and in Hall 7 - stand 7D10. Finally, I would like to thank our exhibitors, visitors, our many media and trade associations especially FINAT, for supporting us and being on this journey with us. It has been a challenging 4 years since the 2019 edition and we have come through better on the other side, together.

As you know, this will be our last Labelexpo Europe at Brussels Expo as we move to the Fira de Barcelona in 2025. We can’t wait for you to join us on the next phase of Labelexpo Europe’s growth!

We hope you enjoy the show, one last time in Brussels!

Jade Grace

Managing Director, Labelexpo Global Series

Dear Visitor,

On behalf of FINAT, the European association for the label industry, I welcome you to Labelexpo Europe 2023. Since 1991, our association has been a proud partner of Informa and its predecessors Tarsus, Cowise and Labelex in presenting the world’s largest event for the labels and packaging industry.

Trade shows like Labelexpo have always been a benchmark for their industry. Exhibitors use the event to launch new products and innovations, visitors use the occasion to check what’s new in press technology and materials, consumables, services or software. Teachers and HR people use the show to educate (future) staff members. Investors make the trip to get a feel for the industry and validate decisions. Label users attend out of curiosity about developments in their supply chain. Media and observers collect input for their stories. And last but not least, with over 600 exhibitors, 9 halls and more than 35 thousand visitors, there is plenty of opportunity to see, be seen, network and do business!

Labelexpo Europe has a lot to offer for everyone. After a prolonged absence of four years due to Covid19, this edition is awaited with great anticipation. No need to list the successive disruptions of Covid19, the revelation of labels and packaging

as enablers of the critical infrastructure, Europe’s Green Deal to link economic recovery to sustainability development, the global distortion of supply chains causing increasing scarcity and cost of raw materials and components, the accelerated digitalization and automation to offset shortage of talent, and the aggravation of it all by increasing global geopolitical and social-economic tensions following Russia’s invasion of Ukraine.

Against this background, it will be very interesting to see how our industry has turned disruption into innovation and opportunity.

At FINAT, we have used the prolonged period of ‘exhibition and events fasting’ to rethink our strategy going forward beyond Covid, and to re-arrange our activities under the four pillars of ‘Community’, ‘Knowledge’, ‘Collaboration’ and ‘Advocacy’. I invite you to visit our stand in Hall 11 (A31) to learn about our current programmes, and to find out how you, as a member of the international label community, can contribute to further empowering the label industry!

Finally, since this will be the last edition of Labelexpo Europe in Brussels, I wish to thank the city of Brussels and Brussels Expo for hosting the event for the past 40 years.

For now, I wish you an informative and successful show.

BIENVENUE

Bienvenue à Labelexpo Europe 2023, où nous célébrons « Les légendes modernes de l'impression » – une présentation des visionnaires et précurseurs qui ont révolutionné l'industrie de l'impression d'étiquettes et d'emballages. Nous sommes ravis de vous accueillir une fois de plus ici, à la Brussels Expo, lors de notre grand rassemblement professionnel.

« Les légendes modernes de l'impression » traduit l'esprit de

l'innovation et de l'imagination qui caractérise tant l'évolution de cette industrie. Ici, vous découvrirez les incroyables histoires d'individus et d'entreprises qui ont défié les normes en repoussant les limites du possible.

Nous avons prévu 3 événements afin d'optimiser votre visite du salon – tous mettant en lumière les développements les plus intéressants d'aujourd'hui, à savoir une arène dédiée à l'automatisation (l'Automation Arena), un espace axé sur les emballages flexibles (le Flex Pack Trail), et un séminaire organisé dans le hall 11 autour du futur des codes de couleur électrode ('Flexo's Future – ECG').

Chaque industrie devrait s'efforcer d'investir dans un apprentissage continu et c'est pour cette raison que nous sommes fiers de proposer un programme d'apprentissage technique complet pendant le salon. Je vous encourage donc à participer à nos trois masterclasses

d'experts, tenues sur quatre jours et qui vous permettront d'explorer les tendances émergentes qui façonneront le futur de l'impression d'emballages.

Nous avons également hâte de célébrer le meilleur de l'industrie avec les Label Awards, qui auront lieu dans le Hall 10 le premier soir. Je compte sur votre présence - nous avons prévu une cérémonie très spéciale pour récompenser, honorer et encourager l'excellence.

N'oubliez pas de récupérer l'édition spéciale du magazine Labels & Labeling où vous découvrirez toutes les dernières tendances et actualités de l'industrie. Vous les trouverez au bureau de l'organisateur - aux halls 7 et 11, stand 7D10. Pour finir, j'aimerais remercier nos exposants, visiteurs, nos nombreux médias ainsi que les associations professionnelles (notamment la FINAT), de nous soutenir et d'être à nos côtés lors de cet événement. Ce fût 4 années difficiles depuis l'édition de 2019, mais nous avons réussi à surmonter tous les défis, ensemble.

Comme vous le savez, ce sera notre dernier Labelexpo Europe à la Brussels Expo puisque nous déménageons à la Fira de Barcelona en 2025. Nous avons hâte de vous voir et de vivre ensemble la prochaine étape du développement de Labelexpo Europe !

Nous espérons que vous serez content du salon, pour la dernière fois à Bruxelles !

Jade Grace

Directrice générale, Labelexpo Global Series

Cher visiteur,

Au nom de la FINAT, l'association européenne de l'industrie des étiquettes, je vous souhaite la bienvenue à Labelexpo Europe 2023. Depuis 1991, notre association est fière d'être partenaire d'Informa et de ses prédécesseurs Tarsus, Cowise et Labelex afin de présenter le plus grand événement au monde dédié à l'industrie d'étiquettes et d'emballages.

Les foires commerciales comme Labelexpo ont toujours servi de référence pour leur industrie. Les exposants utilisent notre événement pour lancer de nouveaux produits et pour exposer leurs dernières innovations, et les visiteurs pour avoir l'occasion d'explorer les nouveautés en matière de technologie de presse et de matériaux, fournitures, services et logiciels. Les enseignants et spécialistes des RH l'utilisent pour éduquer les (futurs) membres de leur personnel, et les investisseurs pour mieux comprendre l'industrie et valider des décisions. Les utilisateurs d'étiquettes y participent par simple curiosité des avancées de leurs chaînes d'approvisionnement, et les médias et observateurs pour recueillir des informations qui étayeront leurs histoires. Pour finir, avec plus de 600 exposants, 9 salles et plus de 35 000 visiteurs, Labelexpo sera une opportunité unique de découvrir, de se faire connaître, de réseauter et de faire affaire !

Labelexpo Europe a beaucoup à offrir à ses visiteurs. Cette édition est très attendue puisqu'elle fait suite à une absence de quatre ans due à la Covid19. Nous avons également subi d'autres chamboulements, notamment la révélation des étiquettes et

emballages comme catalyseurs des infrastructures critiques, le pacte vert pour l'Europe visant à interconnecter le redressement économique et le développement durable, la distorsion mondiale des chaînes d'approvisionnement provoquant une plus grande pénurie et un plus grand coût des matières premières et autres composants, la digitalisation accélérée et l'automatisation pour contrebalancer la pénurie de talents, et l'escalade de tout cela suite à l'amplification des tensions géopolitiques et socioéconomiques mondiales à cause de l'invasion de l'Ukraine par les Russes.

Dans ce contexte, il sera intéressant de voir comment notre industrie a transformé ces défis en innovations et opportunités.

À la FINAT, nous avons profité de cette période prolongée « d'arrêt des expositions et événements » pour repenser notre stratégie post-Covid, et pour ré-organiser nos activités au titre de quatre piliers : 'Communauté', 'Savoir', 'Collaboration' et 'Promotion'. Je vous invite à venir à notre stand du Hall 11 (A31) pour en apprendre plus sur nos programmes en cours, et pour découvrir comment vous, en tant que membre de la communauté internationale des étiquettes, pouvez contribuer à une plus grande valorisation de l'industrie des étiquettes!

Pour finir, puisqu'il s'agira de la dernière édition de Labelexpo Europe à Bruxelles, j'aimerais remercier la ville de Bruxelles et la Brussels Expo d'avoir accueilli l'événement pendant 40 ans.

Mais pour le moment, je vous souhaite de vivre une édition intéressante et révélatrice.

HERZLICH WILLKOMMEN

Wir begrüßen Sie auf der Labelexpo Europe 2023, auf der wir „Die modernen Legenden des Print“ feiern – eine Ausstellung über die Visionäre und Pioniere, die die Etikettierungs- und Verpackungsindustrie revolutioniert haben. Wir freuen uns, Sie alle wieder hier auf dem größten Treffen unserer Branche, der Brussels Expo, treffen zu dürfen.

„Die modernen Legenden des Print“ stehen für den Innovationsgeist und

die Weitsicht, die die Entwicklung dieser Branche stets geprägt hat. Hier werden Sie den bemerkenswerten Geschichten von Einzelpersonen und Unternehmen begegnen, die konventionelle Normen über Bord geworfen und so die Grenzen des Möglichen verschoben haben.

Drei Besonderheiten sollen Ihnen das ideale Zeitmanagement auf der Messe ganz einfach machen – jede hebt die interessanten Entwicklungen von heute hervor, darunter eine Automatisierungsarena, ein Flex Pack Trail und ein Seminar zum Thema „Flexo's Future – ECG“ in Halle 11.

Die Investition in laufendes Lernen macht sich in jeder Branche bezahlt. Es ist uns daher eine Freude, auf der Messe auch ein fundiertes fachliches Lehrprogramm anbieten zu können. In diesem Sinne möchte ich Ihnen während der vier Messtage einen Besuch unserer drei von Experten geleiteten Meisterklassen ans Herz legen. Dort erfahren Sie, wie aufkommende Trends die Zukunft des Verpackungsdrucks gestalten werden.

Darüber hinaus freuen wir uns schon darauf, gleich am ersten Abend der Messe die hellsten Köpfe unserer Branche bei den Label Awards in Halle 10 feiern zu dürfen. Ich hoffe, dass wir uns dort sehen werden – wir haben nämlich eine ganz besondere Feier geplant, auf der wir gemeinsam vortrefflichen Leistungen Auszeichnungen verleihen, Anerkennung zollen und Zuspruch geben.

Vergessen Sie auch nicht, sich eine Messeausgabe vom Magazin „Labels & Labeling“ zu sichern. Darin finden Sie die aktuellen Neuigkeiten und Trends der Branche. Das Team treffen Sie im Büro des Veranstalters an: in Halle 5 und in Halle 7 – Stand 7D10. Abschließend möchte ich noch unseren Ausstellern, Besuchern, unseren vielen Medien- und Handelsverbänden, besonders FINAT, meinen Dank für ihre Unterstützung und für die Gesellschaft auf dieser spannenden Reise bedanken. Seit der Ausgabe im Jahr 2019 haben wir 4 herausfordernde Jahre erlebt, gehen jetzt aber gestärkt aus dieser Zeit hervor.

Wie Sie bereits wissen, wird das die letzte Labelexpo Europe in der Brussels Expo sein, da wir 2025 zur Fira de Barcelona umziehen werden. Wir freuen uns schon darauf, Sie auch während der nächsten Wachstumsphase von Labelexpo Europe an unserer Seite zu wissen!

Wir wünschen Ihnen eine tolle Zeit auf der Messe, auf ein letztes Mal in Büssel!

Jade Grace

Geschäftsführerin, Labelexpo Global Series

Lieber Besucher, liebe Besucherin, ich möchte Sie im Namen von FINAT, der europäischen Gesellschaft der Hersteller von Etiketten, auf der Labelexpo Europe 2023 willkommen heißen. Seit 1991 steht unsere Gesellschaft als stolzer Partner an der Seite von Informa und den Vorgängern Tarsus, Cowise und Labelex. Zusammen stellen wir die größte Veranstaltung für die Etikettierungs- und Verpackungsindustrie auf die Beine.

Messen wie die Labelexpo waren immer schon richtungsweisend für die jeweilige Branche. Aussteller stellen auf der Veranstaltung neue Produkte und Innovationen vor und Besucher nutzen die Gelegenheit, um Neuigkeiten aus der Welt der Drucktechnologie sowie Materialien, Betriebsstoffe, Dienste und Software zu erfahren. Lehrende und Personalprofis vermitteln auf der Messe Inhalte an (künftige) Mitarbeiter. Investoren reisen für einen einmaligen Einblick in die Branche und zur Überprüfung von Entscheidungen an. Verbraucher von Etiketten nehmen aus Neugier über Entwicklungen in ihrer Lieferkette teil. Medien und Bobachter sammeln reichlich Eindrücke für neue Geschichten. Und nicht zu vergessen: Mit über 600 Ausstellern, 9 Hallen und 35.000 Besuchern gibt es nach dem Motto „sehen und gesehen werden“ viele Gelegenheiten zum Netzwerken und um Geschäfte zu machen!

Die Labelexpo Europe hält für jeden Geschmack das passende Angebot bereit. Nach einer längeren Corona-Pause ist die Veranstaltung jetzt zurück. Die zahlreichen Zerrüttungen sind uns allen noch bekannt. Zuerst kam Corona, erst dann erkannten wir Etiketten und Verpackungen als Wegbereiter für die kritische Infrastruktur, der Europäische Grüne Deal

schaft inzwischen eine Verbindung zwischen wirtschaftlicher Erholung und nachhaltiger Entwicklung, globale Lieferketten wurden strapaziert, wodurch Knappheiten und höhere Kosten für Rohmaterialien und Komponenten entstanden sind, die Digitalisierung und Automatisierung schreitet gleichzeitig weiter voran und ermöglicht so einen Ausgleich in puncto Personalmangel und nicht zuletzt wurden all diese Aspekte durch erstarkte globale geopolitische und sozio-ökonomische Spannungen verschlimmert, die auf Russlands Angriff auf die Ukraine zurückzuführen sind.

Angesichts dieser Gegebenheiten wird der Blick hinter die Kulissen der Branche sicherlich interessant sein. Wie konnte Zerrüttung in Innovation und Chancen umgemünzt werden?

Wir von FINAT haben diese „Ausstellungs- und Veranstaltungs-technische Fastenzeit“ aber genutzt und unsere Strategie weit über den Aspekt Corona hinaus neu ausgerichtet sowie unsere Tätigkeiten auf die vier Sockel „Gemeinschaft“, „Wissen“, „Zusammenarbeit“ und „Fürsprache“ gestellt. Ich lade Sie herzlich zu einem Besuch unseres Standes in Halle 11 (A31) ein. Bei uns erfahren Sie mehr über unsere aktuellen Programme und können gleichzeitig herausfinden, wie Sie als Mitglied der internationalen Etikettierungsgemeinschaft einen stärkenden Beitrag für die Etikettierungsbranche leisten können!

Abschließend möchte ich mich noch bei der Stadt Brüssel und Brussels Expo für die Austragung der Veranstaltung während der vergangenen 40 Jahre bedanken. Denn diese Ausgabe wird gleichzeitig die letzte Labelexpo Europe in Brüssel darstellen.

Jetzt bleibt mir nur noch eines zu sagen: Ich wünsche Ihnen eine interessante und erfolgreiche Messe.

Giving Shape to Ideas

WELKOM

Welkom op Labelexpo Europe 2023, waar we “The Modern Legends of Print” vieren - een showcase van de visionairs en pioniers die een revolutie teweeg hebben gebracht in de etiketten- en verpakingsdrukindustrie. We zijn verheugd u allen opnieuw te mogen verwelkomen hier in Brussels Expo, op de grootste bijeenkomst van onze industrie.

“The Modern Legends of Print” vat de geest van innovatie en verbeelding

samen die de evolutie van deze branche heeft gekenmerkt. Hier vindt u de opmerkelijke verhalen van personen en bedrijven die de conventionele normen hebben getrotseerd en de grenzen van het mogelijke hebben verlegd.

Wij hebben 3 beursonderdelen samengesteld om uw tijd op de beurs optimaal te benutten - met de nadruk op de interessantste ontwikkelingen van dit moment, waaronder een Automation Arena, een Flex Pack Trail, en een seminar in Hal 11 over ‘Flexo’s Future – ECG’.

Elke branche zou moeten investeren in permanente educatie en daarom zijn we er trots op dat we op de beurs een diepgaand technisch opleidingsprogramma kunnen aanbieden. Ik moedig u daarom aan om mee te gaan naar onze drie masterclasses onder leiding van experts tijdens deze vier dagen en te zien hoe opkomende trends de toekomst van het verpakingsdrukwerk vormgeven.

We kijken er ook naar uit om het beste uit de branche te vieren tijdens

de Label Awards in Hal 10 op de eerste avond van de show. Ik hoop dat u kunt komen - we hebben een heel bijzondere ceremonie gepland, waarbij we samen uitmuntendheid belonen, erkennen en aanmoedigen.

Vergeet niet de beurseditie van Labels & Labeling magazine mee te nemen, boordevol met het laatste nieuws en de nieuwste trends uit de branche. U kunt het team vinden bij de kantoren van de organisator in Hal 5 en in Hal 7 - stand 7D10. Tot slot wil ik onze exposanten, bezoekers, vele media en beroepsverenigingen, in het bijzonder FINAT, bedanken voor hun steun en aanwezigheid op deze reis met ons. Het zijn vier uitdagende jaren geweest sinds de editie van 2019 en we zijn er samen beter uitgekomen.

Zoals u weet is dit onze laatste Labelexpo Europe in Brussels Expo, omdat we in 2025 naar de Fira de Barcelona verhuizen. We staan te popelen om samen met u de volgende fase in de groei van Labelexpo Europe in te gaan!

We hopen dat u van de beurs geniet, voor de laatste keer in Brussel!

Jade Grace

BIENVENIDO

Bienvenido a Labelexpo Europe 2023, en esta edición queremos homenajear a “Los iconos modernos de la impresión”, una exposición que contará con los visionarios y pioneros que han revolucionado el sector del etiquetado y del embalaje. Estamos encantados de recibirlos de nuevo aquí en Brussels Expo, en el mayor encuentro de profesionales de nuestro sector.

“Los iconos modernos de la impresión” resume el espíritu de innovación e imaginación que ha caracterizado la evolución de este sector. Aquí conocerá grandes historias de personas y empresas que han desafiado a las normas convencionales, ultrapasando todos los límites

Hemos preparado 3 puntos destacados para optimizar su tiempo en la feria, en los que resaltamos las novedades más interesantes de la actualidad incluyendo la Automation Arena, la ruta del embalaje flexible y un seminario en el pabellón 11 sobre el “El futuro de la flexografía: ECG”.

Creemos que todas las industrias deberían invertir en formación continua, y por eso estamos orgullosos de ofrecer un programa de formación técnica muy exhaustivo en la feria. Le invitamos a asistir a nuestras tres master class dirigidas por expertos durante los cuatro días y a observar cómo las tendencias emergentes conforman el

futuro del sector de la impresión de embalajes.

También queremos homenajear a los mejores del sector en los Label Awards, que se darán en el pabellón 10 la primera noche de la feria. Esperamos contar con su asistencia ya que hemos planeado una ceremonia realmente especial en la que honraremos, reconoceremos y fomentaremos juntos la excelencia.

No olvide hacerse con un ejemplar de la revista Labels & Labeling, con las últimas noticias y tendencias del sector. Puede encontrar al equipo en la Oficina del Organizador, en el pabellón 5 y en el pabellón 7, stand 7D10. Por último, me gustaría dar las gracias a nuestros expositores, visitantes, medios de comunicación y asociaciones profesionales, especialmente a la FINAT, por su apoyo y por acompañarnos en este viaje. Han sido 4 años llenos de retos desde la edición de 2019 y hemos avanzado mucho, juntos.

Como saben, esta será nuestra última Labelexpo Europe en Brussels Expo, ya que nos trasladaremos a la Fira de Barcelona en 2025. ¡Estamos deseando verle en la nueva fase de Labelexpo Europe!

Esperamos que disfrute mucho de la feria, ¡puesto que será la última edición en Bruselas!

Jade Grace

Directora general, Labelexpo Global Series

Estimado visitante:

En nombre de la FINAT, la Federación Internacional de la Fabricantes de Etiquetas, le doy la bienvenida a Labelexpo Europe 2023. Desde 1991, nuestra federación ha sido socio de Informa y de sus predecesores Tarsus, Cowise y Labelex con orgullo en la presentación del mayor evento del mundo para la industria de etiquetas y embalajes.

Las ferias comerciales como Labelexpo siempre han sido un punto de referencia para el sector. Los expositores aprovechan el evento para lanzar nuevos productos e innovaciones, los visitantes para enterarse de todas las novedades en tecnología y materiales de impresión, consumibles, servicios o software. Los profesores y responsables de recursos humanos aprovechan la feria para formar a los (futuros) miembros de sus plantillas. Los inversores van para hacerse una idea del sector y validar sus decisiones. Los usuarios de etiquetas acuden por curiosidad sobre la evolución de la cadena de suministro. Los medios de comunicación y los observadores recogen información para sus artículos. Y por último, pero no por ello menos importante, con más de 600 expositores, 9 pabellones y más de 35 000 visitantes, ¡hay muchas oportunidades para ver, ser visto, hacer contactos y negocios!

Labelexpo Europe tiene mucho que ofrecer a todo el mundo. Tras una prolongada ausencia de cuatro años debido a la Covid19, esta edición se espera con gran expectación. No hace falta recordar la etapa de la Covid19 y el papel del sector de las etiquetas y los

embalajes como habilitadores de la infraestructura crítica o el Green Deal europeo para ayudar en la recuperación económica al desarrollo de la sostenibilidad, la distorsión global de las cadenas de suministro que provocó una creciente escasez y coste de las materias primas y los componentes, la digitalización y automatización aceleradas para compensar la escasez de talentos y el agravante del aumento de las tensiones geopolíticas y socioeconómicas globales tras la invasión de Rusia en Ucrania.

En este contexto, será muy interesante ver cómo nuestra industria ha transformado toda esa problemática en innovación y nuevas oportunidades.

En FINAT, hemos aprovechado el prolongado periodo de “escasez de ferias y eventos” para replantearnos nuestra estrategia de cara al futuro, más allá de la Covid y reorganizar nuestras actividades bajo los cuatro pilares de “Comunidad”, “Conocimiento”, “Colaboración” y “Promoción”. Le invito a visitar nuestro stand en el pabellón 11 (A31) para informarse sobre nuestros programas en la actualidad y descubrir cómo puede contribuir, ¡como miembro de la comunidad internacional del sector de las etiquetas, a potenciar aún más este sector!

Por último, dado que ésta será la última edición de Labelexpo Europe en Bruselas, me gustaría darles las gracias a la propia ciudad de Bruselas y a Brussels Expo por acoger el evento durante los últimos 40 años.

Le deseamos una buena y productiva feria.

BENVENUTI

Benvenuti a Labelexpo Europe 2023, dove celebriamo “I moderni eroi della stampa” e mettiamo sotto i riflettori i pionieri e i visionari che hanno rivoluzionato il mondo della stampa di etichette e packaging. Siamo felici di accogliervi di nuovo presso Brussels Expo per l'evento più grande del nostro settore.

Il tema che abbiamo scelto, “I moderni eroi della stampa”, racchiude lo spirito di innovazione e immaginazione che

ha caratterizzato l'evoluzione di questo settore. Qui potrete scoprire le storie notevoli di persone e aziende che hanno sfidato le norme tradizionali, spingendo sempre più avanti i limiti del possibile.

Per permettervi di sfruttare al meglio il tempo passato in fiera, abbiamo preparato 3 attività che mettono in luce i nuovi sviluppi più interessanti del momento: Automation Arena, Flex Pack Trail e un seminario presso il Padiglione 11 dal titolo “Flexo's Future – ECG”.

Investire sulla formazione continua è importante in ogni settore e proprio per questo ci preghiamo di offrire un programma di formazione tecnica approfondita durante la fiera. Vi invito caldamente a partecipare alle tre masterclass tenute da esperti nei quattro giorni di fiera, per scoprire le tendenze emergenti che plasmeranno il futuro della stampa per il packaging.

Un altro momento importante sarà la premiazione dei Label Awards, riconoscimenti dedicati al meglio del settore. La cerimonia di consegna si terrà presso il Padiglione 10 la sera del primo giorno di fiera. Conto sulla vostra presenza per rendere omaggio all'eccellenza e incoraggiarla sempre di più.

Non perdetevi l'edizione fieristica della rivista Labels & Labeling, con tutte le ultime novità e tendenze del settore. Potete prendere una copia e incontrare la redazione presso l'ufficio degli organizzatori nel Padiglione 5 e lo stand 7D10 nel Padiglione 7. Infine desidero ringraziare tutti gli espositori, i visitatori, i tanti media partner e le associazioni di settore, in particolare la FINAT, per averci sostenuti e accompagnati in questo viaggio. Dall'edizione 2019 sono passati 4 anni difficili, ma ne siamo usciti insieme e migliori di prima.

Come sapete, questa sarà l'ultima edizione di Labelexpo Europe presso Brussels Expo, dato che nel 2025 ci sposteremo alla Fira de Barcelona. Non vediamo l'ora di farvi conoscere questa nuova versione futura di Labelexpo Europe!

Godetevi la fiera, per l'ultima volta a Bruxelles!

Jade Grace

Direzione Amministratore Delegato,
Labelexpo Global Series

Gentile visitatrice, gentile visitatore,

A nome di FINAT, l'associazione europea del settore labeling, ti do il benvenuto a Labelexpo Europe 2023. La nostra associazione è felice di affiancare fin dal 1991 l'organizzazione del più grande evento al mondo dedicato all'industria del labeling e del packaging, collaborando con Informa e prima ancora con i suoi predecessori, Tarsus, Cowise e Labelex.

Le fiere come Labelexpo sono da sempre un punto di riferimento per il settore. Per gli espositori sono il momento giusto per lanciare nuovi prodotti e innovazioni e per i visitatori sono l'occasione di scoprire tutte le novità in termini di tecnologie e materiali per la stampa, prodotti di consumo, servizi e software. Anche formatori e operatori delle risorse umane ne approfittano per la formazione dei dipendenti e delle future leve. Gli investitori le visitano per tastare il polso del settore e avere una base solida per le loro decisioni, mentre gli utilizzatori finali sono spinti dalla curiosità per gli ultimi sviluppi della filiera. Ci sono anche osservatori e mezzi di comunicazione, che raccolgono idee per i loro contenuti. Non dimentichiamo poi il fatto che, con più di 600 espositori, 9 padiglioni e oltre 35 mila visitatori, ci sono tante occasioni per vedere, farsi conoscere, fare networking e concludere affari.

Labelexpo Europe ha molto da offrire e c'è enorme attesa per quest'edizione, che arriva dopo un'assenza di quattro lunghi anni dovuta al Covid19. Non serve ricordare tutti i cambiamenti che si sono susseguiti in questi anni: gli sconvolgimenti causati dal Covid19,

la scoperta che etichette e packaging sono fondamentali per le infrastrutture più cruciali, il Green Deal europeo che ha legato la ripresa economica allo sviluppo sostenibile, le distorsioni nelle supply chain a livello globale che hanno causato una sempre maggior carenza di materiali e componenti e il conseguente aumento dei prezzi, l'accelerazione della digitalizzazione e dell'automazione in risposta a una mancanza di forza lavoro qualificata, nonché l'aggravarsi di tutti questi fattori a causa delle sempre maggiori tensioni geopolitiche e socioeconomiche a livello globale che hanno fatto seguito all'invasione russa in Ucraina.

In questo contesto, sarà interessante scoprire come il nostro settore ha saputo trasformare gli sconvolgimenti in innovazione e nuove opportunità.

Noi di FINAT abbiamo usato questo lungo periodo di “digiuno” dalle fiere e dagli eventi per ripensare la nostra strategia per il futuro post-Covid e abbiamo riorganizzato la nostra attività in quattro filoni: “Comunità”, “Conoscenza”, “Collaborazione” e “Rappresentanza”. Vieni a visitare il nostro stand nel Padiglione 11 (A31) per scoprire i programmi che proponiamo oggi e per scoprire come anche tu, in quanto membro della comunità internazionale del labeling, puoi contribuire a rafforzare ulteriormente questo settore.

Infine, questa sarà l'ultima edizione di Labelexpo Europe in questa sede, perciò desidero ringraziare la città di Bruxelles e Brussels Expo per aver ospitato questo evento negli ultimi 40 anni.

Per concludere, spero che questa fiera sarà ricca di informazioni e di successo anche per te.

SHOW INFORMATION

OPENING HOURS

Monday, 11 September 9:30 - 17:30
Tuesday, 12 September 9:30 - 17:30
Wednesday, 13 September 9:30 - 17:30
Thursday, 14 September 9:30 - 16:00

Last entry 30 minutes before close.

PRESS OFFICE AND PRESS CONFERENCE ROOM

The Press Office, located downstairs in the front of Hall 7, is available for accredited journalists only. Journalists are invited to the Press Office where exhibitor information, computers, internet access, telephones, desk, full catering and a bar are available. Press Conferences will take place in Auditorium 500, next to the Press Office.

LABELXPO GLOBAL SERIES AND LABELS & LABELING OFFICE

In Hall 7, information about the Labelexpo Global Series (stand 7D10) and Labels & Labeling magazine (stand 7D09) is available. Please feel free to come and meet the organizers of Labelexpo and publishers of Labels & Labeling.

MEDIA CENTER

Located at the front of Hall 7, the Media Center is packed full of magazines published by Labelexpo Europe's Media Partners. Feel free to come along and pick up a free copy or subscribe to many of the industry's leading magazines.

CAMERA RESTRICTIONS

No cameras will be permitted in the exhibition halls or conference rooms except for the official Labelexpo Europe 2023 photographers, or unless otherwise approved by the Labelexpo Europe 2023 Management.

SOLICITATIONS

Solicitations for orders by unauthorized people are strictly prohibited. Sales and promotional activities are restricted to exhibitors and must take place on their own stand.

CHILDREN

For health and safety reasons, no person under 18 will be allowed into the exhibition halls whatsoever. This applies to contractors', visitors' and exhibitors' children.

Booth 4D65

ECO
FRIENDLY

Fossil resources
saving product

DEHESIVE® products are tailored to applications and have a successful track record of over 30 years of use around the world as silicone release coatings for paper and film. DEHESIVE® silicones set standards in versatility, processability and economy. The advanced technology is ideal for modern applications in the labeling, adhesive tape and food industries. WACKER is now setting a new standard in sustainability with DEHESIVE® eco. Rather than fossil raw materials, this product uses biomethanol extracted by entirely ecological means, based on the biomass balance method, ensuring a lower carbon footprint. This approach has been proven to be environmentally compatible and resource-efficient – while delivering consistently high quality.

INFORMAZIONI

ORARI D'APERTURA

Lunedì 11 settembre	9:30 - 17:30
Martedì 12 settembre	9:30 - 17:30
Mercoledì 13 settembre	9:30 - 17:30
Giovedì 14 settembre	9:30 - 16:00

Ultimo ingresso 30 minuti prima della chiusura.

UFFICIO STAMPA E SALA CONFERENZA STAMPA

L'Ufficio Stampa, nel piano inferiore, di fronte al padiglione 7, è disponibile solo a giornalisti certificati. Tutti i giornalisti sono invitati all'Ufficio Stampa, dove saranno disponibili informazioni sugli espositori, computer, collegamento Internet, telefoni, scrivanie e servizi di catering e bar completi.

Le conferenze stampa avranno luogo nell'Auditorium 500, vicino all'Ufficio Stampa

LABELXPO E LABELS & LABELING OFFICE

Presso lo stand 7D10 nel Padiglione 7 sono disponibili informazioni su Labelexpo Global Series e la rivista Labels & Labeling (stand 7D09). Vi invitiamo a venire a incontrare gli organizzatori di Labelexpo.

MEDIA CENTER

Nel Padiglione 7, nel Media Center troverete un vastissimo numero di pubblicazioni delle società di comunicazione partner di Labelexpo Europe. Vi invitiamo a venire a prendere copie gratuite delle pubblicazioni, o ad abbonarvi alle pubblicazioni leader di settore.

FOTOGRAFIA

Nei padiglioni dell'esposizione non sono permesse macchine fotografiche ad eccezione di quelle dei fotografi ufficiali di Labelexpo Europe 2023, a meno che non approvate dal Management di Labelexpo Europe 2023.

SOLLECITAZIONI

Le sollecitazioni di ordini da persone non autorizzate sono strettamente vietate. Le vendite e le attività promozionali sono limitate agli espositori e dovranno avere luogo nei rispettivi stand.

BAMBINI

Per ragioni di salute e sicurezza, nei padiglioni della fiera non sono ammessi per nessun motivo persone al di sotto dei 18 anni. Questo vale per i bambini di appaltatori, visitatori e espositori.

CERM 

SHOW FEATURES

AUTOMATION ARENA

The Labelexpo Europe 2023 Automation Arena is demonstrating a full 'lights out' production workflow from file creation to digital printing, converting and inspection.

The participants are CERM, Esko, Xeikon, KURZ, Grafotronic and Fedrigoni Self-Adhesive. As well as automated setup and inspection of both printing and converting processes, the CERM MIS will collect real-time information via a Cloud portal which visitors can monitor on their smart devices. CERM will demonstrate printing of closing labels on each roll on the turret rewinder.

Equipment on the stand includes the Esko Automation Engine prepress software; a Xeikon TX500 digital press with KURZ inline digital metallization module; Grafotronic DCL2 converter with new IQ workflow automation and fully automatic turret; Esko AVT 100% automated print inspection system; and Boon-tech Velox automatic core cutter. The labels will be printed on RE-PLAY NATURE WHITE WS FSC, a sustainable media by Fedrigoni Self-Adhesive.

Free to attend for all Labelexpo Europe 2023 registered visitors.

PROGRAMME HORS DU COMMUN

AUTOMATION ARENA

La Labelexpo Europe 2023 Automation Arena met en lumière un flux de production complètement autonome pour la création de fichiers mais aussi l'impression, la conversion et l'inspection numériques.

Parmi les participants, vous retrouverez CERM, Esko, Xeikon, KURZ, Grafotronic et Fedrigoni Self-Adhesive. En plus d'une configuration automatisée et d'une inspection des processus de conversion et d'impression, le CERM MIS recueillera, en temps réel, des informations via un portail Cloud auquel les visiteurs pourront accéder sur leurs appareils intelligents. CERM fera une démonstration d'impression d'étiquettes de fermeture sur chaque rouleau de la rebobineuse à barillet.

Parmi les équipements que vous trouverez sur le stand, l'on compte : le logiciel de pré-presses de moteur d'automatisation Esko ; une presse digitale Xeikon TX500 avec un module de métallisation digital en ligne KURZ ; un convertisseur Grafotronic DCL2 avec une nouvelle tourelle entièrement automatique d'automatisation du quotient intellectuel du flux des opérations ; un système d'inspection d'impression automatisé à 100 % Esko AVT ; et une fraise carbure automatique Boon-tech Velox. Les étiquettes seront imprimées sur du RE-PLAY NATURE WHITE WS FSC, un support durable par Fedrigoni Self-Adhesive.

Évènements gratuits pour tous les visiteurs inscrits à Labelexpo Europe 2023.

LABEL ACADEMY

ILLUSTRATED SELF-ADHESIVE LABELS

Self-adhesive Labels offers a comprehensive introduction to self-adhesive / pressure-sensitive label technology, the individual components, materials and specific applications. Also covered are performance requirements and sustainability. This brand new Label Academy guide is a must-have resource for label converters, brand owners, designers and the wider label supply chain.

The chapters in this book will specifically look at:

- + Introduction to the self-adhesive label market
- + Silicone release liner technology
- + Pressure-sensitive adhesive technologies
- + Identification and characteristics of PS label materials
- + Test methods for pressure-sensitive labels

Also in the series:

MESSEPROGRAMM

AUTOMATION ARENA

In der Labelexpo Europe 2023 Automation Arena wird ein kompletter Produktions-Workflow nach dem Lights-out-Prinzip demonstriert, von der Dateierstellung über die Konvertierung bis hin zur Inspektion.

Die Teilnehmenden reichen von CERM, Esko, Xeikon, KURZ, Grafotronic bis hin zu Fedrigoni Self-Adhesive. Neben der Vorführung der automatisierten Einrichtung und Inspektion von Druck- und Konvertierungsprozessen wird CERM MIS über ein Cloud-Portal Informationen in Echtzeit sammeln. Besucher können diese dann über ihre smarten Geräte einsehen. CERM wird hingegen den Druck von Verschlussetiketten auf allen Rollen des Wendewicklers demonstrieren.

Am Stand sehen Sie unter anderem die Vorstufensoftware Esko Automation Engine, eine digitale Druckpresse Xeikon TX500 gemeinsam mit dem digitalen In-Line-Modul zur Metallisierung von KURZ; den Konvertierer Grafotronic DCL2 mit der neuen IQ-Arbeitsablaufsautomatisierung und einem vollautomatischen Kleinrollenwickler; das zu 100 % automatisierte Druckinspektionssystem Esko AVT und den automatischen Kernschneider Velox von Boon-tech. Dabei werden die Etiketten auf das nachhaltige Material RE-PLAY NATURE WHITE WS FSC von Fedrigoni Self-Adhesive gedruckt.

Freier Eintritt für alle registrierten Besucher der Labelexpo Europe 2023.

AUTOMATION ARENA

De Labelexpo Europe 2023 Automation Arena demonstreert een volledige 'lights out'-productieworkflow, van het aanmaken van bestanden tot digitaal afdrukken, converteren en inspecteren.

De deelnemers zijn CERM, Esko, Xeikon, KURZ, Grafotronic en Fedrigoni Self-Adhesive. Naast geautomatiseerde instelling en inspectie van zowel druk- als conversieprocessen, zal het CERM MIS real-time informatie verzamelen via een cloudportaal dat bezoekers kunnen bekijken op hun smart devices. CERM demonstreert het afdrukken van sluitetiketten op elke rol op de turret rewinder.

De apparatuur op de stand omvat de Esko Automation Engine prepress software; een Xeikon TX500 digitale pers met KURZ inline digitale metallisatiemodule; Grafotronic DCL2 converter met nieuwe IQ workflow automatisering en volautomatische turret; Esko AVT 100% geautomatiseerd printinspectiesysteem; en Boon-tech Velox automatische core cutter. De etiketten worden gedrukt op RE-PLAY NATURE WHITE WS FSC, een duurzaam medium van Fedrigoni Self-Adhesive.

Gratis toegang voor alle geregistreerde bezoekers van Labelexpo Europe 2023.

FUNCIONES DE LA FERIA

AUTOMATION ARENA

La Labelexpo Europe 2023 Automation Arena pondrá de relieve las últimas tendencias y mostrará un flujo de trabajo de producción completamente automatizado, desde la creación de archivos hasta la impresión digital y la conversión y la inspección.

Los participantes son CERM, Esko, Xeikon, KURZ, Grafotronic y Fedrigoni Self-Adhesive. Además de la configuración e inspección automatizadas de los procesos de impresión y conversión, el CERM MIS recopilará información en tiempo real a través de un portal en la nube que podrá supervisar en su propio dispositivo. CERM demostrará la impresión de etiquetas de cierre en cada rollo en la rebobinadora de torreta.

Algunos de los equipos de los stands incluyen el software de preimpresión de Esko Automation Engine; la prensa digital de Xeikon TX500 con módulo digital de metalización en línea de KURZ; el convertidor de Grafotronic DCL2 con una nueva automatización del flujo de trabajo IQ y una torreta completamente automática; un sistema de inspección de impresión Esko AVT 100 % automatizado; y cortadora automática de mandriles Boon-tech Velox. Las etiquetas se imprimirán en RE-PLAY NATURE WHITE WS FSC, un soporte sostenible de Fedrigoni Self-Adhesive.

Gratis para todos los visitantes registrados en Labelexpo Europe 2023.

ECCEZIONALI INIZIATIVE

AUTOMATION ARENA

La Labelexpo Europe 2023 Automation Arena presenta la dimostrazione di un flusso di lavoro di produzione completo, dalla creazione del file alla stampa digitale, alla conversione e al controllo.

Partecipano a questa iniziativa CERM, Esko, Xeikon, KURZ, Grafotronic e Fedrigoni Self-Adhesive. Oltre alla configurazione automatica e al controllo dei processi di stampa e conversione, il software MIS di CERM raccoglie informazioni in tempo reale attraverso un portale su Cloud che i visitatori possono monitorare dai loro dispositivi smart. CERM presenterà una dimostrazione di stampa delle etichette di chiusura su ogni rotolo del riavvolgitore a torre.

Allo stand saranno esposti tra l'altro: il software per pre stampa Esko Automation Engine; la stampante digitale Xeikon TX500 con modulo digitale in-line KURZ per la metallizzazione; il convertitore Grafotronic DCL2 con la nuova automazione IQ e torre completamente automatizzata; il sistema di controllo Esko AVT automatizzato al 100%; e il tagliamandrini automatico per anime in cartone Boon-tech Velox. Le etichette saranno stampate su RE-PLAY NATURE WHITE WS FSC, un supporto sostenibile prodotto da Fedrigoni Self-Adhesive.

Ingresso gratuito per tutti i visitatori registrati a Labelexpo Europe 2023.

SHOW FEATURES

FLEX PACK TRAIL

Short run, value-added flexible packaging offers label converters an outstanding opportunity to diversify their product offering and provide brands with a 'one-stop shop' for printed packaging.

Label converters can use the same expertise they already bring to label conversion – short turnaround, fast job changeover, in-line and near-line decoration – to bring flexible packaging buyers shorter ordering times, no minimum quantities, multiple variants and personalization/mass customization.

The Labelexpo Europe 2023 Flex Pack Trail will give label converters all the information they need to enter this market: what you need to know about digital and conventional press technologies; flexpack material constructions; coating, laminating, ink and curing requirements; in-line and near-line decoration options; QC and migration testing.

PROGRAMME HORS DU COMMUN

FLEX PACK TRAIL

Les emballages flexibles en petite série et pratiques permettent aux convertisseurs d'étiquettes de diversifier leur gamme de produits et de fournir aux marques un produit complet dédié à l'emballage imprimé.

Les convertisseurs d'étiquettes peuvent utiliser la même expertise qu'ils apportent déjà à la conversion d'étiquettes – une production industrielle courte, une transition professionnelle rapide, une décoration en ligne et en near-line – pour permettre aux acheteurs d'emballages flexibles de réduire leurs temps de commande, de ne pas avoir besoin de quantités minimales ou de variants multiples, et de personnaliser en masse.

Le Labelexpo Europe 2023 Flex Pack Trail donnera aux convertisseurs d'étiquettes toutes les infos nécessaires à leur entrée sur le marché des emballages flexibles : les technologies de presse conventionnelles et numériques ; les matériaux de construction d'emballages flexibles ; les exigences en matière de revêtement, plastification, impression et polymérisation ; les options de décoration en ligne et en near-line ; l'obtention de certificats qualité et les essais de migration.

MESSEPROGRAMM

FLEX PACK TRAIL

Hochwertige und flexible Verpackungsangebote für Kleinauflagen stellen für Etikettenkonvertierer eine hervorragende Gelegenheit zur Diversifizierung ihres Produktangebots dar und bieten Marken darüber hinaus eine Rundumlösung für bedruckte Verpackungen.

Etikettenkonvertierer können weiterhin Etikettenkonvertierung mit demselben Grad an Expertise anbieten – schnelle Abwicklungszeiten, schnelle Umrüstzeiten, In-Line- und Near-Line-Verzierung – und so Käufern von flexiblen Verpackungen kürzere Bestellzeiten, Aufträge ohne Mindestabnahme, mehrere Varianten sowie Personalisierung und flexibilisierte Massenproduktion garantieren.

Auf dem Flex Pack Trail der Labelexpo Europe 2023 erhalten Etikettenkonvertierer alle nötigen Informationen, um diesen Markt für sich erschließen zu können: Erfahren Sie, was Sie über digitale und herkömmliche Selbstklebetechnologien, Flexpack-Materialien, Beschichtungen, Laminierungen, Anforderungen an Tinte und Aushärtung, In-Line- und Near-Line-Verzierungsmöglichkeiten, QC und Migrationsprüfungen wissen müssen.

GEWELDIGE BEURSATTRACTIES

FLEX PACK TRAIL

Flexibele verpakkingen in kleine oplagen met toegevoegde waarde bieden etikettenproducenten een uitstekende gelegenheid om hun productaanbod te diversifiëren en merken een 'one-stop shop' voor bedrukte verpakkingen te bieden.

Etikettenproducenten kunnen dezelfde expertise die ze al in huis hebben voor de conversie van etiketten - korte doorlooptijden, snelle omschakeling van opdrachten, in-line en near-line decoratie - gebruiken om kopers van flexibele verpakkingen kortere besteltijden, geen minimumhoeveelheden, meerdere varianten en personalisering/massa-aanpassing te bieden.

De Labelexpo Europe 2023 Flex Pack Trail geeft etikettenproducenten alle informatie die ze nodig hebben om deze markt te betreden: wat u moet weten over digitale en conventionele perstechnologieën; constructies van flexibele verpakkingsmaterialen; vereisten voor coating, lamineren, inkt en uitharding; in-line en nearline decoratieopties; QC en migratietesten.

FUNCIONES DE LA FERIA

FLEX PACK TRAIL

Los embalajes flexibles son un valor añadido que le ofrecerán una oportunidad increíble de diversificar su oferta de productos y le proporcionarán una "ventanilla única" para la impresión de embalajes.

Los convertidores de etiquetas pueden utilizar la misma experiencia que ya aportan a la conversión de etiquetas (plazos de entrega cortos, cambios rápidos de trabajo, decoración en línea y cerca de la línea) para ofrecer a los compradores de embalajes flexibles plazos más cortos, sin cantidades mínimas, con múltiples variantes y personalización/personalización masiva.

La ruta de embalajes flexibles de Labelexpo Europe 2023 ofrecerá a los convertidores de etiquetas toda la información que necesitan para entrar en este mercado: lo que hay que saber sobre las prensas de impresión digitales y convencionales; construcciones con embalaje flexible; revestimientos, laminados, requisitos sobre secado de tintas; opciones de decoración en línea y cerca de la línea; pruebas de control de calidad y migración.

ECCEZIONALI INIZIATIVE

FLEX PACK TRAIL

Gli imballaggi flessibili a filiera corta e a valore aggiunto sono un'ottima opportunità per chi si occupa di conversione di etichette: permettono di diversificare la gamma di prodotti offerti e forniscono ai marchi un servizio "tutto incluso" per la stampa degli imballaggi.

Gli operatori possono mettere a frutto l'esperienza accumulata nella conversione di etichette (tempi di lavorazione brevi, cambi rapidi tra una lavorazione e l'altra, decorazione in-line e near-line) per offrire agli acquirenti di imballaggi flessibili la possibilità di piazzare ordini con tempi più rapidi, senza quantità minime, con diverse varianti e con opzioni di personalizzazione/customizzazione di massa.

Il Labelexpo Europe 2023 Flex Pack Trail dà agli operatori tutte le informazioni necessarie per entrare in questo mercato, tutto quello che serve sapere sulle tecnologie di stampa digitali e tradizionali, sulla realizzazione dei materiali flexpack, sui requisiti per rivestimenti, laminazioni, inchiostri e trattamenti, sulle opzioni di decorazione in-line e near-line e sui test da fare per il controllo qualità (QC) e la migrazione.

FEATURE

FLEXO'S FUTURE – ECG

Redefining printing with Expanded Color Gamut's Impact on Efficiency and Sustainability

On Tuesday and Wednesday (12th / 13th), all visitors will be able to attend an ECG seminar in the dedicated features area in hall 11 where they will gain valuable insight from packaging supply chain members, hosted by ECG expert Dr Kai Lankinen.

Pre-registered visitors will also join an organised trail through the show of sponsors' stands.

Time-to-market, efficiency and sustainability are key in the packaging chain. There is demand to produce smaller amounts in a more cost-effective way, where spot color accuracy of brand elements is critical.

Packaging and label production with traditional flexography consists of analogically mixed spot colors which takes up a lot of resources and materials. This ECG trail will explain why and how you can make the transition from traditional spot color printing to modern expanded color gamut printing (ECG).

Label and packaging converters, brand owners and designers will get the opportunity to learn more about the features needed for expanded gamut printing and how using the fixed color ECG set makes package printing more efficient and sustainable.

SEMINAR TIMES

Tuesday 12:15-13:15
Wednesday 12:15-13:15

LOCATION: 11C17

TOUR TIMES

Tour #1: Tuesday, 10:00-11:00 at Stand 3B24
Tour #2: Tuesday, 13:45-14:45 at Stand 7A11
Tour #3: Wednesday, 10:00-11:00 at Stand 8B45
Tour #4: Wednesday, 13:45-14:45 at Stand 7B40

LABEL ACADEMY MASTER CLASS: FLEXIBLE PACKAGING

TUESDAY 12 SEPTEMBER 2023 – ROOM 1101A AND 1101B, HALL 11 – PRICE: €595

Gain the necessary knowledge and expert guidance that label, and other, converters looking to enter or expand their production into flexible packaging are likely to require – substrates, design and origination, press printing and converting. Learn how ink components interact with drying and curing technologies, and with packaging line demands. Current legislation, including ink migration, will also be addressed.

This master class will be presented by leading flexible packaging experts from the fields of materials, pre-press, printing technology, inks and coatings, and flexible pack formation and filling. It is organized by the Label Academy, the global training program for the label and package printing industry.

9.45	WELCOME ADDRESS
9.50	FLEXIBLE PACKAGING: AN INTRODUCTION
	<ul style="list-style-type: none"> • What is flexible packaging and how big is the market? • The main types of flexible packaging • Benefits and advantages of flexible packaging including digital
	Fernando Gordillo , EMEA Sustainability Lead GCP and L&P, HP
10.15	CREATION OF ARTWORK AND PRE-PRESS
	<ul style="list-style-type: none"> • Selection of required pack shape/image from a shape story • Adding physical dimensions and incorporating text, graphics, and 3D structure • Artwork, step-and-repeat, color management and proofing
	Jan De Roeck , Director - Industry Relations and Strategy, Esko
10.40	PAPER AND BOARD, METALLIC FOIL, FILMS AND MULTI-LAYER CONSTRUCTIONS
	<ul style="list-style-type: none"> • Performance demands on flexible packaging materials • Commonly used substrates, their properties and applications • Laminates, barrier properties and heat sealing
	Nanette Thomas , CEO and Owner, Synthogra
11.05	PRINTING PROCESSES AND TECHNIQUES
	<ul style="list-style-type: none"> • Considerations of web widths, tension and edge control • Web treatment: cleaning, heat management, chill rolls and inspection • Quality control, compliance and testing
	Alberto Redaelli , Sales Manager, Lombardi
11.30	BREAK WITH TEA AND COFFEE
11.50	UV PRINTING AND FOOD PACKAGING
	<ul style="list-style-type: none"> • Managing UV in flexible packaging production • Progress update on the Finat UVFoodSafe initiative • Recommendations for future guidelines
	Jonathan Sexton , UVFoodSafe Group Lead, Finat/Sun Chemical
12.15	INKS, COATINGS, CURING AND LAMINATING
	<ul style="list-style-type: none"> • Inks and ink requirements • Performance and usage – food contact, migration, deep freeze, etc. • Laminating inks, and barrier coatings
	Molly L. Hladik PhD , Global Research and Development Manager, Michelman
12.40	CONVERTING FLEXIBLE PACKAGING
	<ul style="list-style-type: none"> • Slitting and laminating: requirements and processes • Pouching production processes • Quality control and troubleshooting
	John Price , President, Karlville
	Rob Stelea , Senior Converting Specialist, Karlville
13.05	FROM LABELS TO FLEXIBLES – A CONVERTER PERSPECTIVE
	<ul style="list-style-type: none"> • What does a label converter need to understand? • What are the potential pitfalls? • Challenges of managing a multi-stream business
	Steve Baker , Managing Director, Baker Labels
	Harry Baker , BakPac Sales & Operations, BakPac
13.30	NETWORKING LUNCH
14.15	END OF MASTER CLASS

Super Color (Guangzhou) - China's Top UV Ink Manufacturer
 Redefine Printing Excellence with our World-Class UV Inks

SUPER·COLOR®
 超彩油墨

Unlock Success with Super Color UV Inks:

- Uncompromising Quality • Extensive Product Range • Global Reputation

- ✓ **LED UV / UV Flexo Inks:**
 Enhance your prints with vibrant colors and precise results
- ✓ **LED UV / UV Digital Inks:**
 Experience the future of printing with fast-curing, high-quality digital inks
- ✓ **LED UV / UV Flexo Inks for Shrinkage Films:**
 Leave a lasting impression with superior adhesion and print quality
- ✓ **LED UV / UV Flexo Varnishes, Adhesives & Primers:**
 Elevate your prints with gloss, matt, and high-resistant finishes
- ✓ **LED UV / UV Rotary Screen Inks:**
 Achieve sharpness and ease of use for flawless results
- ✓ **LED UV / UV Offset / Letterpress Inks:**
 Achieve exceptional ink transfer and water resistance for intricate designs

Join Our Global Network of Success:

- ✓ Cutting-edge products at the forefront of innovation
- ✓ Unmatched quality for exceptional results
- ✓ Comprehensive support and guidance for your business

LABEL ACADEMY MASTER CLASS: SUSTAINABLE LABELS AND PACKAGING

WEDNESDAY 13 SEPTEMBER 2023 – ROOM 1101A AND 1101B, HALL 11

Gain the necessary technical knowledge and expert guidance that label – and other – converters looking to improve their sustainability credentials need to become more efficient with their resources. Learn how to contribute to a circular economy and meet current EU regulations.

Different aspects of the label production process are examined. Discover how to make sustainable choices with inks and coatings, understand liner waste disposal challenges and solutions, and learn how to use blockchain for recording and reporting sustainability criteria for your business.

This master class will be presented by leading sustainability experts. It is organized by the Label Academy, the global training program for the label and package printing industry.

9.45	WELCOME ADDRESS	12.15	SUSTAINABLE INKS AND COATINGS
9.50	CHALLENGES AND OPPORTUNITIES: A CONVERTER PERSPECTIVE	<ul style="list-style-type: none"> How do inks impact container recycling and reuse? The challenge of shrink sleeve and PS label inks Carbon footprint impact of UV and UV-LED curing 	
<ul style="list-style-type: none"> Approaches to label and plastic collection and recycling Leaner and greener energy usage Sustainable labeling: what the converter needs to know 	<p>Paloma Alonso, (incoming) CEO, All4Labels Gabriela Neves, VP Global R&D and Sustainability, All4Labels</p>	<p>Pierre Dogliani, R&D Innovation Manager NW Europe, Flint Group</p>	
10.15	DEVELOPING SUSTAINABILITY STANDARDS	12.40	OPTIONS FOR MATRIX AND LINER WASTE
<ul style="list-style-type: none"> Packaging and Packaging Waste Regulations (PPWR) Other EU regulations Design for Recycling guidelines 	<p>Pablo Englebienne, Regulatory Affairs & Sustainability Manager, Finat Maja Desgrées du Lou, Policy Officer for Packaging and Packaging Waste Directive, European Commission</p>	<ul style="list-style-type: none"> Benefits of a waste extraction system Capturing, collection and transport Saying no to landfill: recycling programs for release liner 	
10.40	USING BLOCKCHAIN FOR RECORDING AND REPORTING SUSTAINABILITY BENEFITS	<p>Karsten Kejlhof, Chief Commercial Officer, Lundberg Tech</p>	
<ul style="list-style-type: none"> Planning and implementing a sustainability program What should converters be measuring and recording? Reporting to brands 	<p>Federico D'Annunzio, Founder and CEO, Traent.com</p>	13.05	ENABLING LINER MATERIAL CIRCULARITY: THE OPPORTUNITY
11.05	UNDERSTANDING SUSTAINABILITY IN FLEXIBLE PACKAGING	<ul style="list-style-type: none"> How big is the used liner material opportunity? CELAB collection and recycling pathways Exploring geographic and logistics solutions 	
<ul style="list-style-type: none"> Benefits over rigid packaging Alternative materials and innovations Supporting the circular economy 	<p>Adam Robinson, Sustainability and Insights Manager, Coveris</p>	<p>Ophélie Gourdou, Project Manager, CELAB Europe</p>	
11.30	BREAK WITH TEA AND COFFEE	13.30	THE HOLY GRAIL OF CLOSING THE LOOP
11.50	PS LABELS AND THE CIRCULAR ECONOMY	<ul style="list-style-type: none"> Digitalisation of packaging for recycling Benefits of digital watermarks to the packaging value chain Update on the status of the project 	
<ul style="list-style-type: none"> Role of labels in circular packaging Washable adhesives: technology and benefits Linerless 	<p>Alena Maran, Director Marketing Strategy & Sustainability, Avery Dennison Wayne Middleton, Senior Linerless Segment Lead EMENA, Avery Dennison</p>	<p>Jan 't Hart, Project Manager HolyGrail 2.0, AIM (European Brands Association)</p>	
		13.55	NETWORKING LUNCH
		14.40	END OF MASTER CLASS

DIELINE FORUM - DESIGN TOMORROW

MONDAY 11 SEPTEMBER, TUESDAY 12 SEPTEMBER – MEETING ROOM 301, NEAR HALL 3

WHY ATTEND:

If you're passionate about branding and package design, Dieline Forum 2023 is the must-attend event combining topics of sustainability and branding. Not only will you learn from some of the best and brightest creatives building some of the world's biggest brands, but you'll come away inspired, learning how to innovate and design a better tomorrow.

WHAT TO EXPECT:

When you register for Dieline Forum 2023, you'll witness some of the best designers, brands, and agencies in the world presenting case studies and innovative ideas to get your creative juices pumping. Learn how to build the brands of tomorrow and innovate for the future.

Expect to leave this two-day conference feeling fired up and ready to design the brands of tomorrow.

THE GLOBAL STANDARD FOR POLYIMIDE COATINGS

Highly corrosive fluxes. Chemicals. Extreme temperatures. They're all in a day's work for Polyonics. We have over 28 years of polyimide R&D to bring demanding PCB manufacturers the industry's most durable label materials to accurately track boards and components.

When you need the highest quality, specialty engineered coating and adhesives to meet your most stringent PCB requirements, there's only one global standard.

LABEL ACADEMY

ILLUSTRATED FLEXIBLE PACKAGING

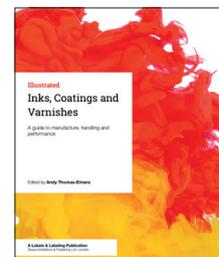

Flexible packaging continues to experience one of the highest growth rates across all printing sectors. Narrow- and mid-web printing using conventional and digital technology has opened up the market for both label converters and new customers entering this industry, who have never previously had a solution for short-run flexible packaging orders.

Now in its second edition and including a whole new chapter, **Illustrated Flexible Packaging**, is an essential resource for label converters, package printers, suppliers and brands.

The chapters in this book look at:

- + **Inks, coatings, curing and laminating – NEW**
- + Paper and board, metallic foil, films and multi-layer constructions
- + Types of flexible packaging and special constructions
- + Pre-press, printing and converting
- + Forming, filling, sealing and lidding operations
- + Markets, applications and opportunities

Also in the series:

TOP CLASS EUROPEAN SHRINK FILM MANUFACTURER

SLEEVE MAKER® IS A BRAND OF MAYTECH INTERNATIONAL

*We offer top class
shrink films for sleeve
applications in the label
industry*

*Our product portfolio
includes PETG, r-PET,
CPET and PVC shrink film.*

*Wide technical specification range
is available: high and medium shrink rate,
low shrink force, white films, etc.*

Visit us at Booth 3D67 and sleeve-maker.com

SO VERSATILE - SO UNIQUE!

KURZ transfer products and complete machine systems for digital finishing

Digital label printing with KURZ finishing systems

Attractive label design is the key to successfully selling products at the POS. With the digital finishing system DM-UNILINER 3D, this is a simple, highly attractive, and very economical process.

As a market leader in finishing, you can not only rely on our transfer products, you can also benefit from our many years of experience as a machine manufacturer. This is what sets us apart as a one-solution partner for you.

With DM-UNILINER 3D you will be able to add another dimension to the finishing: In addition to metallization, you can now add a gloss varnish for a tactile experience and an exceptional look.

KURZ YOUR ONE SOLUTION PARTNER

DM-UNILINER 3D
(raised metallization
and varnish)

polilux

Inspirational
PACKAGING

Youngest
BOPP CO.

Leading
PRODUCT

Polilux is the youngest player of BOPP production industry. The company was established in 2018 and its main purpose has been to focus special products such as IML, PSL so far. Polilux has been performing production with specially designed Brückner Technology in order to produce the highest quality of label materials.

Polilux today exports material to 26 countries and this number reached in only 3 years after establishment. The company has only one purpose as to be a leading producer of special products. As a consequence Polilux launched its first BML (Blow-Moulding Label) product in 2022 and the company is producing high quality of PSL Facestock material which can serve high end market since January 2023. Polilux invested the first of its kind investment which will be the only one in the World. The main purpose of this investment is to match with company's objectives as to be leading special product supplier.

LABEL ACADEMY

A BRAND NEW EDUCATIONAL SUBSCRIPTION SERVICE FROM LABELS & LABELING

For the very first time Labels & Labeling magazine is offering unlimited access to a vast library of Label Academy book content and pre-recorded Labelexpo and Label Academy master class presentations.

A SUBSCRIPTION TO THE LABEL ACADEMY GIVES YOU ACCESS TO:

150+

ARTICLES FROM 16 LABEL ACADEMY BOOKS

20

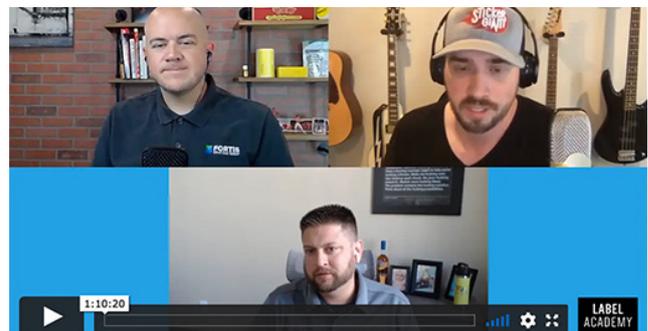

VIDEOS FROM LABEL ACADEMY AND LABELEXPO VIRTUAL EVENTS

INCLUDES CONTENT FROM THE FOLLOWING LABEL ACADEMY BOOKS:

- Conventional Label Printing Processes
- Digital Label and Package Printing
- Flexible Packaging
- Shrink Sleeve Technology
- Self-Adhesive Labels: A technical guide for label converters and brand owners
- Inks, Coatings and Varnishes
- Label Design and Origination
- Environmental Performance and Sustainable Labeling
- Die-cutting and Tooling
- Product Decoration Technologies
- Label Embellishments and Special Applications
- Label Dispensing and Application Technology
- Codes and Coding Technology
- Brand Protection, Security Labeling and Packaging
- Label Markets and Applications
- Management Information Systems and Workflow Automation

INCLUDES VIDEO CONTENT ON:

- Digital printing technology
- Flexible packaging
- Global market perspectives
- Converters on business markets and opportunities
- Branding and design
- Sales and marketing opportunities
- Future proofing your business

CONVENIENT AND COST-EFFECTIVE

The subscription offers remarkable value. With all the content you've come to value from Labelexpo and the Label Academy conveniently located in one place, users can expect to make substantial savings on their annual training budgets.

Additionally, with more articles and videos being added throughout the year, the value of your subscription will continue to increase.

Whether you are a newcomer to the industry or an expert, your subscription means you are only a click away from the answer to your question.

LABEL ACADEMY

ILLUSTRATED MANGEMENT INFORMATION SYSTEMS AND WORKFLOW AUTOMATION

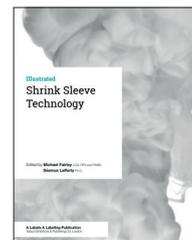

Technology has brought more control, automation and sophistication to every stage of the label and package printing process – from a customer placing an order to receiving it. This is creating vast opportunities for converters, as well as adding complexity to project management.

Management Information Systems and Workflow Automation is an essential read for new, as well as more experienced users, to help navigate the intricacies of choosing the most appropriate system for your business from the many options available.

This illustrated guide will not only explore MIS and workflow automation systems, but it will specifically look at:

- + Accounting for profitability
- + Inventory control and quality management
- + Efficient order processing and job management
- + A detailed appendix of industry suppliers

Also in the series:

Aero LED[®]

Air-cooled UV Curing System

UV LED... made simple

Fully air-cooled high power UV LED for printing,
coating & converting applications

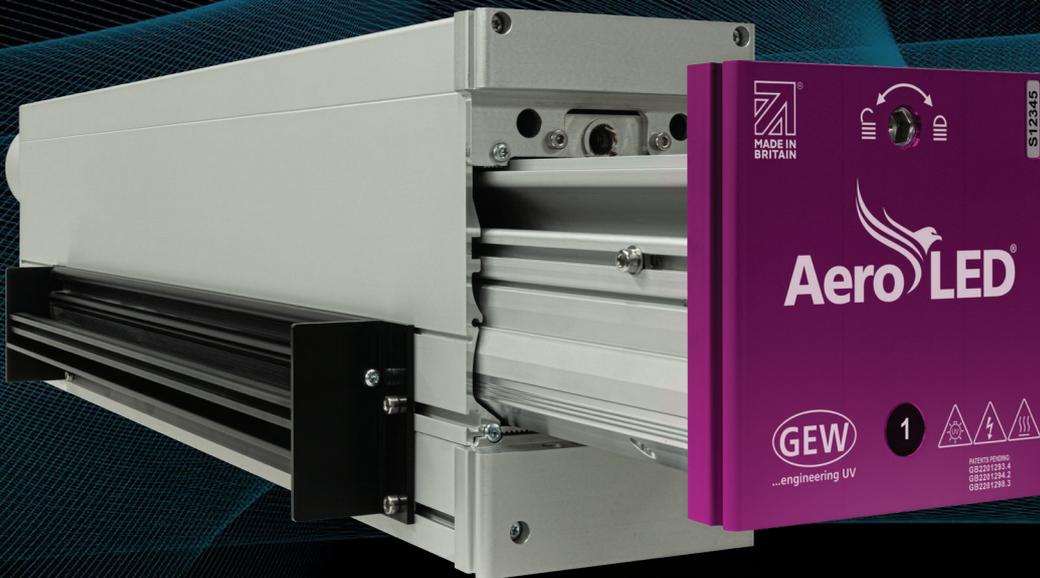

AIR-COOLED

ENERGY
EFFICIENT

RELIABLE
PROCESS

Interchangeable
UV curing systems

gewuv.com/aeroled

Single fan: quiet,
dependable operation

Reduce energy
costs by up to 70%

Transform
process reliability

ArcLED compatible:
easier LED upgrades
